

## **ABOUT THE COURSE & SPEAKER**

### **“When Sinusitis Presents as Dental Pain: A Sinusitis Overview & Advanced Treatment Options”**

An overview of sinusitis along with treatment options as a means to educate and collaborate together on patient care.

The course will include:

- Overview of Sinusitis
- Evaluation & treatment options
- Case studies
- Q & A

The goal is to provide help for those patients with undiagnosed ENT or dental issues and work together in identifying when to treat and when to refer to a specialist.

Dr. Adams will address commonly asked questions such as:

What is your “go-to” antibiotic regimen for sinus infection?

What is your treatment protocol for sinusitis?

What should we be concerned with in the maxillary sinus while reading a CT scan? Any specific items we should be aware of that would require referral for evaluation?

He can also address pediatric airway issues and when to refer to an ENT, as well.

### **Jeffrey R. Adams, MD**

Otolaryngology – Ear, Nose & Throat, The Everett Clinic

Dr. Adams completed medical school at the University of Washington and did his residency in Otolaryngology at Oregon Health Science University. In addition, Dr. Adams completed a fellowship in Head and Neck Surgical Oncology in Sydney, Australia. Dr. Adams joined the Everett Clinic in 2001 and sees patients at the Everett and Edmonds locations.
